

BREAKING NEWS

January 28, 2016

Warren T. Eich Middle School is proud to announce that we have been officially authorized as an International Baccalaureate (IB) World School. This authorization comes after a four-year rigorous application process and adds us to an exclusive group of schools from around the world.

As the only authorized IB non-charter public middle school in Placer County, Eich administration would like to thank the teachers, support staff, students, parents, and District Office for their support and dedicated work over these past four years. Without their support we would not be able to offer World Language, Visual and Performing Arts (VAPA), Accelerated Classes, Math Olympiad, Destination Imagination, and the Scripps National Spelling Bee to our students.

Warren T. Eich Middle School looks forward to continuing to increase student achievement through these prestigious academic programs while adding more programs in the future, including Project Lead the Way (PLTW), which will support the Roseville Joint Union High School District's Career Technical Education (CTE) programs.

Thank you,

Marc Buljan, Principal
Warren T. Eich Middle School
